With a Diamond-Studded Gavel He Esp Assemblage to Order-Mahone Awarded His Sent After a Pro-Faction Secures a Bulk of the Delegation.

CHICAGO, June 19.—A strong breeze that made the big strips of bunting in which the exterior of the auditorium was enveloped flap like the sails of a West Indian merchantman in October gales awept over Lake Michigan landwards Tuesday morning. Very grateful it proved to the thousands that from an early hour gathered in front of the great building and gazed longingly upon the doors through whose pertals they had no open sesame.

Directly beneath the chair were pictures of Generals Logan and Grasit, while from the first baleony portraits of all the Republican Presidents locked down upon the delegates. The New York, Michigan and Massachusetts delegations, which had been honored with the front scate, were among the first to arrive. In the neat five minutes the western and northwestern delegates canie in rapidly, but the southern men were still alow. The Virginians were considerably bothind, and many opers glasses were vainly leveled in quest of the diminutive Mahone and the doughty Wise, who head the rival delegations.

Rev. Frank Gunsalus was introduced to lead the convention in prayer. He thanked the Lord for the intelligence and courage under which the banners of the Republican party had gone forth to conquests and prayed that the convention might be dominated by good purposes, for the glory of God and the good of the people. Hersings were asked for the leafers of the party and for those occupying high places in the administration.

Then the call for the convention was read in a ringing tone by Secretary Fessenden, and the references to the tariff, to the protection of American laber, to the accumulation of the surplus, the demand for a free, honest ballot, a fair count and the question of the admission of the Territories were loudly cheered, especially that relating to tariff. The reading concluded Chairmen Jones read an address. He predicted success for the Republican party and scored President Cieveland for his Southern alliance and the free trade weakness of the Administration. He saw the country did not want to go back to the Democratic days of sloth and ignorance.

The speaker's voice penetrated every neok and corner of the hall. Silence restored, the list of temporary officers was read, leading out with C. W. Frisby, of Michigan; Michael Rickard, of Wisconsin, and W. M. Bowell, of Tennessee, as secretaries.

CMICAGO, June 20.—The great Convention Hall fills more rapidly this morning than yesterlay. The uncompleted details in the arrangements of seals compelled the Sergeant-at-Arms to keep the crowd out yesterday until mearly moon. To-day there is nothing wanting, and the eager, expectant, pursled, but somewhat weary multitude, flows into the building with great expectation visible upon every face. The weather is much warmer than yesterday, and in the great galleries and balconies there is a sea of waving fans, and some of the spectators discard their coats and take their case in true democratic style, while the crowds flow in with a great murmer like the ocean. There is a slower gathering of the solons of the party, the newspaper men and the officers of the convention on the platform and in the galleries in the rear of the chairman's desk.

The old walnut desk, with its gill letterings telling that from it Haine and Garfield were both nominated in this city, excites a great deal of cariosity from the people on the stage in its vicinity. The desk top is scarred with deep cuts made by the vandal knives of the relic hunter and to prevent further depredations, a uniformed policeman keeps guard over the desk natil its proper official custodians arrive. There are plenty of gavels at the convention, and no less than four are now resting in plush cases on the chairman's desk.

The convention was called to order at 12.20 by Chairman Thurstva and a hush fell upon the assemblage when Rev. Stephen A. Northrop, of Fort Wayne, find, littled up his voice in prayer. The Chair stated that at the last two Republican Conventions the Committee on Permanent Organization had reported before the Committee on Credentials had completed its labors. He was informed that the Committee on Credentials would not be ready to report until so clock this evening.

Mr. Henderson, of Jowa, said that as the convention could do nothing under the circumstances except to organize, unless it should be proposed to go on with the nominating speeches, he would move to take a recess until 8 o'clock to night. Crice of "No. no." Mr. Hayne, of Pennsylvania, opposed this, and Mr. Henderson withdrew his motion, and moved to proceed to a permanent organization, which was agreed to. Ex. Governor Footer, of Ohio. Chairman of the Committee on Permanent Organization, then stepped upon the platform and read the unanimous report of the committee. He was given an enthusiastic reception by the andience, and as he stated that M. M. Estee, of Calfornia, was selected for Permanent Chairman of the Convention, the cheering broke forth afreah. Governor Foster proceeded to resist the list of Vice-Presidents as selected by the various State delegations.

The report was adopted without dissent, and the chair appointed Governor Foster, of Ohio; Senator Foley, of Nevada, and Mr. George B. Slonn, of New York, a committee to secort Mr. Estee to the platform from his seat in the California delegation.

The committee then excerted Mr. Estee to the platform, his appearance upon which was greeted with cheers, which was renewed as he took his place at the speaker's stand, where he made a short but impressive speech.

THIRD DAY.

CHICAGO, June 21.—The Convention was called to order promptly at 10 o'clock this morning by Chairman Estee.

The invocation was delivered by Rev. Thomas E. Green, of Chicago, who thanked the Almighty for the past, with its weight of history; for the present, with its magnificent sweep of possibilities, and for the rich hope of the future. He invoked the Divine blessing upon the convention, and prayed that its proceedings might be characterized by wisdom. At the conclusion of the prayer the chairman touched the electric bell as a signal for the hand to render some selections, but there was no response, the members of the band not yet having put in an appearance.

One of these is the plain oak gavel. Another is the historic gavel presented by Mr. Horr, of Mehigan, with which Chairman Thurston promised to pound the life out of the Democratic party. A third is the gold banded instrument which a Chicago firm presented the temporary chairman, and a fourth is for the permanent chairman, which has been presented by the mayor of Chicago. This gavel is a very hand some affair. It is a beautiful piece of workmanship, 12 inches in length of solid silver, twisted, at the top of which are two escutcheons of the United States in gold and enamel.

Above this is the American cagle bearing on its back the gavel proper, which is of silver, bearing upon it the name of the thirty-eight States of the Union. At each end is a heavy gold plate, upon one of which has a three carriadianond and the arms of the State of Hilliots, and at the other end is engraved: "Presented to the National Republican Convention of lies, by His Honor. In the spirit of those great leaders, and of our rown devotion to human liberty, and with that heatility to all forms of despotism and oppression which is the fundamental ideal of the Republican party, we send fraternal congratuation to our fellow-americans of Brazil upon their great act of emancipation, which completed the abolition of slavery throughout the two American continents. We earnestly hope that we may soon congratuate our fellow-citizens of Irish birth upon the peaceful recovery of home rule for Ireland.

We reeffirm our unaversity devotion to the National Constitution and to the indisseptible

Union of the States, to the autonomy reserved to the States under the Constitution, to the personal rights and liberties of citizens in all the States and Territories in the Union, and especially to the supreme and soverign right of every lawful citizen, rich or poor, native or foreign born, white or black, to cast one free ballot in public elections and to have that ballot daily counted. We hold the free and honest popular ballot and the just and equal representation of all the people to be the foundation of our Republican Government and demand effective legislation to secure the integrity and purity of elections, which are the foundation of all public authority. They serve the interests of Europe; we will support the interests of America. We accept the issue and confidently appeal to the people for their judgment. The protective system must be maintained. Its abandonment has always been followed by general disaster to all interests, except those of the usurer and the sheriff. We denounce the Mills hill as destructive to the general business, the labor and the farming interests of the country, and we heartily endorse the consistent and patriotic action of the Republican representatives in Congress in opposing its passage.

The Committee on Credentials were not ready to report.

The restoration of unearned railroad land grants to the public domains for the use of actual settlers, which was begun under the Administration of President Arthur, should be continued. We deeny that the Democratic party has ever restored one acre to the people, but declare that by the joint action of Republi-cans and Democrats about 25,000,000 acres of un-earned lands, originally granted for the con-struction of railroads, have been restored to the public domain, in pursuance of the conditions Bradley, of Kentucky, and Foraker, of Ohio, adleading out with C. In a Republic like ours, where the citizen is the sovereign and the official the servant, where no power is exercised except by the will of the people, it is important that the sovereign—the people—should possess intelligence. The free school is the promoter of that intelligence which is to preserve us a free nation; therefore, the State or Nation or both combined, should support free institutions of learning sufficient to afford to every child growing up in the land the opportunity of a good, common school education.

sufficient to afford to every child growing up in the land the opportunity of a good, common school education.

We carnestly recommend that prompt action be taken by Congress in the enactment of such legislation as will best secure the rehabilitation of our American merchant marine, and we protest against the passage by Congress of a free ship bill, as calculated to work injustice to labor by lessening the wages of those engaged in proparing materials as well as those directly employed in our ship yards. We demand appropriations for the early rebuilding of our navy; for the construction of coast fortifications and modern ordinance, and other approved modern means of defense for the protection of our defenseless harbors and cities; for the payment of just pensions to our soldiers; for necessary works of National importance in the improvement of harbors and chanceles of internal, coast-wise and foreign commerce; for the encouragement of the shipping interests of the Atlantic Guif and Pacific States, as well as for the payment of the maturing public debt. This policy will give employment to our latior, activity to our various industries, increase the security of our country, premote trade, open new and direct markets for our praduce and cheapen the cost of trainsportation. We affirm this to be for better for our country than the Democratic priest of localing the Government's money without interest to 'pet bases.'

The conduct of foreign affairs by the present Administration has been distinguished by its inefficiency and its cowardize. Having with drawn from the Senate all pending treatics effected by Hepublican administration for the removal of foreign burdens and restrictions upon our commerce and for its extension into better markets, it has neither effected nor proposed any others in their stead. Professing adherence to the Monroe doctrine, it has seen with idle complacency the extension of foreign influence in Central America, and of fereign trade everywhere among our heighbors. It has refused to charter, sanction or encourage any American organization for constructing the Nicarangua Canal, a work of vital importance to the maintenance of the Monroe doctrine and of our National influence in Central and South America, and necessary for the development of trade with our Pacific territory, with South America, and with the islands and further coasts of the Pacific Ocean.

We acmign the present Democratic Administration for its weak and unpatriotic treatment of the fisheries question, and its pusilianimous surrender of the essential privileges to which our fishing vessels are entitled in Canadian ports under the treaty of 1818, the reciprocal maritime legislation of 1830, and the comity of nations, and which Canadian fishing vessels receive in the ports of the United States. We condemn the policy of the present Administration and the properties as unfriendly and conspicuously unpatriotic, and as tending to destroy a valuable national industry, and an indispensable resource of defense against a foreign seemy.

It should and must afford him protection at home, and futlow and protect him abroad in whatever land he may be on a lawful errund."

The men who abandoned the Republican party in 1884 and continue to adhere to the Democratic party, have deserted not only the cause of honest government, of sound finance or freedom and purity of the ballot, but especially have deserted the cause of reform in the civil service. We will not fail to keep our pleages because they have broken theirs, or because their candidate has broken his. We therefore repeat our declaration of 1884, to-wit: "The re-

because they have broken theirs, or because their candidate has broken his. We therefore repeat our declaration of 1884, to-wit: "The reform of the civil service mapiciously begun under the Republican Administration should be completed by the further extension of the reform system already established by law to all the grades of the service to which it is applicable. The spirit and purpose of the reform should be observed in all executive appointments, and all laws at variance with the object of existing reform legislation should be repealed, to the end that the dangers to free institutions which lurk in the power of official patronage may be wisely and effectively avaided."

The gratitude of the Nation to the defenders of the Union can not be measured by laws. The legislation of Congress should conform to the pledges made by a loyal people, and be so enlarged and extended as to provide against the possibility that any man who honerably wore the Federal uniform shall become an limite of an alms house or dependent upon private charity. In the presence of an overflowing treducty It would be a public scandal to do less for those whose valurous service proceeved the Government. We denounce the hostile spirit shown by President Cleveland in his numerous vetoes of measures for pension relief, and the action of the Democratic House of Representatives in refusing even a consideration of general pension legislation.

In support of the principles herewith enun ated we invite the co-operation of patriotic m of all parties, and especially of all workings whose presperity is seriously threatened the free trade policy of the present Administration

Bad for the Blondes.

Dr. Beddoe is responsible for a statenent which is at once novel and surprising. He declares that the chances of dark women obtaining husbands are to those of fair women in the proportion of three to two; and that this conclusion is proved by statistics. Certainly this is in opposition to the general idea upon the subject. For every dark hero ine of a novel there are twenty fair ones; while, although a few poets may have sung the praises of dark beauties, those who have celebrated the charms of fair ones are vastly more nu Among the lower classes of English, indeed, there is a general prejudice against dark-haired women, it being a fixed idea that they possess infinitely worse tempers than fair women. Were Dr. Beddoe's theory correct that three brunettes marry to every two blondes. it would certainly be found that almost every unmarried lady past the age of thirty belong to the latter category, which is certainly not the case. At the same time the fact that the hair of the people of this island is becoming distinctly darker than it was is one that can not be denied. Persons who can look back half a century will be ready to admit the change in this respect. For every red-haired person to be seen now ten would have been met with fifty years back; and if the change continue at the same rate in another half century red-haired people will have become so uncommon that a red-haired lady will be one of the most attractive figures in a country show. From what cause this arises we are unable to say; but we can not think that Dr. Beddoe's theory that three men out of every five prefer dark women to fair is a correct one. - London Standard.
